Certifications

- **FreeCodeCamp Responsive Web Design (October 2023 – August 2024):**
Gained expertise in HTML, CSS, Flexbox, and CSS Grid. Developed responsive web projects such as landing pages, surveys, and portfolios, emphasizing mobile-first design.
- **FreeCodeCamp JavaScript Algorithms and Data Structures (August 2024):**
Acquired deep understanding of JavaScript fundamentals, ES6, and object-oriented programming. Solved algorithmic challenges and optimized data handling through structured algorithms.
- **FreeCodeCamp Front End Development Libraries (September 2024):**
Learned to use React, Bootstrap, Sass, and Redux for building dynamic UIs. Implemented state management and built scalable web applications leveraging modern libraries.
